KIDS OF MANY PROMISES, LEARNING EVERYDAY TO EXCEL!!!!

Complete Academy was created for young girls to have a solid foundation where they are able to learn and enjoy being creative, while in a fun and safe environment. Because of the state of the world today, it is important to keep our young girls engaged in positive activities and around positive people.

Our summer program will empower your daughter while building their self-esteem and fostering their creativity. Summer program runs for 12 weeks from 9am-4pm. Your daughters will spend almost 2 hours each day exploring Art, Creative Writing and Dance.

Studies have shown that children who participate in the arts; are higher academic achievers, prevent negative choices later on, have increased attention span and tolerance, and even higher SAT scores, regardless of socio-economic status.

Terry Semel, past chairman of Warner Bros., said, "Art is central to a civilized society. Kids who create don't destroy."

We encourage you to register your daughter (granddaughters, nieces and god-daughters)now – space is limited. We look forward to empowering your children!!

You may register your child at <http://www.kompleteacademy.com>. {mosloadposition user9}
